OPIC CIPO

Trade-marks Journal

Vol. 62 No. 3182

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

C J

Image Description (Vienna)
- Crowns closed at the top (by cap of estate or chapeau)
- Two or more crowns
- Crowns with points in the form of arrows
- Crowns surmounted with a cross
- Crowns accompanied by a letter, monogram or numeral(s)
- Crowns with another figurative element
- Crowns presenting other characteristics
- Circles
- One circle or ellipse
- Circles or ellipses containing other figurative elements
- Circles or ellipses containing one or more letters
- Letters presenting a special form of writing
- Monograms formed of intertwined, overlapping or otherwise combined letters

GOODS

Magnetically encoded cards for carrying data; integrated circuit cards; multifunction cards, namely, magnetically encoded cards for carrying data, integrated circuit cards and smart cards, all for financial transaction and financial services; bank cards, cash cards, charge cards, cheque cards, debit cards, credit cards, automatic teller machine cards; loyalty cards; card readers, namely, electronic card readers, magnetically encoded card readers, smart card readers, point of sale card readers; automated teller machines and electronic payment terminals for magnetically encoded cards; point of sale card readers; cash dispensers; automatic teller machines, automatic paying-in and deposit machines; adding machines; computers, computer programs and computer software for the provision of banking services, financial services, namely, personal financial planning, loan services, interest rate calculating, mortgage rate comparison and for carrying out personal banking transactions, bank account management services, monetary transfer services, payment services, financial analysis and financial reports, financial management services, and information services relating to banking and finance; computer software to enable the searching of data relating to banking and finance; downloadable electronic and digital publications and publications provided by CD-ROM or diskettes, namely, newsletters, magazines, periodicals, pamphlets and leaflets; computer software for the provision of banking services, financial services, bank account management services, monetary transfer services, payment services, financial analysis and financial reports, financial management services, and information services relating to banking and finance; computer software to enable the searching of data relating to banking and finance, and upgrades to that software supplied on-line from computer databases, computer networks, global computer networks or the Internet; electronic publications, namely, newsletters, magazines, periodicals, pamphlets, leaflets, provided on-line from computer databases, computer networks, global computer networks or the Internet (including web pages and web sites); software providing financial and banking solutions namely foreign currency exchange and foreign currency transaction services; computer software and telecommunications apparatus, namely, modems to enable connection to databases, computer networks, global computer networks and the Internet; computer software to enable searching of data; computer software for facilitating or enabling access to business services, financial services, banking services, bank account management services, information services and e-mail services; parts and fittings for all the aforesaid goods; cardboard; printed matter, namely, newspapers, periodicals and cheque books; newsletters, magazines, pamphlets, leaflets; plastic covered cards bearing printed matter; bookbinding material; photographs; stationery, namely, file folders, binders, booklets, calendars, cheque book holders, coasters, computer and copier paper, document files, envelopes, erasers, printed forms, pens, pencils, terrestrial globes, letterhead, note books, writing pads, pamphlets, rubber erasers, rulers, teaching materials in the form of manuals and brochures, towels of paper, labels, staplers; adhesives for stationery or household purposes; paint brushes; typewriters; printers' type; printed publications, namely, newspapers, periodicals, newsletters, magazines, pamphlets, leaflets; advertising materials, namely, newsletters, periodicals, magazines, pamphlets, leaflets, posters; brochures, vouchers, cheques, cheque books, paying-in books; bank cards; cash cards, charge cards, cheque cards, debit cards, credit cards, loyalty cards, all being other than encoded or magnetic; cheque book holders.

SERVICES

Business management; business administration; book-keeping; company registration services; share registration services; payroll preparations; business advisory and information services in the field of financial planning; business planning; business appraisals; business management assistance; accounting services; economic forecasting and analysis for business purposes; market analysis and market research; profit and cash flow forecasting, analysis and planning, all being economic forecasting services; personnel management and employment consultancy; data collection, storage and processing; computer database management, data processing, data verification and file management; computerised business information storage and retrieval; credit card registration services; procurement of goods and services on behalf of businesses; purchasing of goods and services for others businesses; business administration services for the processing of sales and transactions made on a global computer network or the Internet; the bringing together, for the benefit of others, office supplies and office equipment, enabling customers to conveniently view and purchase those goods from a computer network website or an Internet website; business and commercial advice and information namely, financial analysis and consultation for businesses, provided by telephone or provided on-line from a computer database, computer network, global computer network or the Internet; customer care services in the field of banking and finance; loyalty scheme services; loyalty card services; organisation, operation, management and supervision of loyalty schemes and incentive schemes; insurance; administration of financial affairs, namely, providing accounting and portfolio management services to others, computerised financial services, namely online bank accounts; monetary affairs, namely online securities trading and electronic monetary payments; monetary transfers; real estate affairs; banking services; financial services, namely, financial information processing; insurance services; banking services; financial investment services in the fields of investment securities and certificates of deposit; mortgage services; pension fund administration and management services; retirement planning services; savings services, namely, providing savings accounts and credit re-builder savings accounts; bank account services; chequing account services; mortgage services; automated banking services; electronic banking, brokerage and funds transfer services; cash dispensing services; cash card services; credit card services; debit card services; home banking; telephone banking; Internet banking; on-line banking; business banking services; foreign exchange services and foreign exchange transactions services, financial transaction relating to currency swaps, foreign monetary advisory service, provision of pricing information about money market rates; forecasting of foreign exchange rates; arranging and financing of loans; asset financing; brokerage of stocks, bonds and securities; credit services; business valuations; financial managements; financial forecasting and planning; international banking services; issuing letters of credit; provision of financial guarantees; electronic payment transfer services; telegraphic payment transfer services; issuing and redemption of bank drafts; currency account and exchange services; collection of payment against shipping documents and bills of exchange; financial planning for retirement; financial advice and information; insurance advice and information; investment advice and information; mortgage advice and information; pensions advice and information; bank account information and information relating to bank accounts; financial information provided on-line from a computer database, computer network, global computer network, the Internet and websites; information and advice relating to banking, finance, insurance, investment, mortgages, pensions and savings, provided on-line from a computer database, computer network, global computer network or the Internet; advisory, consultancy, information and helpline services relating to all the aforesaid services.

THE GREEDY BOOK

GOODS

(1) Software for use with mobile phones to enable the compiling and sharing of desired goods and services and to enable said lists to be viewed by third parties; software for use with mobile phones to enable barcode scanning; software used to create and share wish lists of products and services desired by the registered user; mouse pads; computer mice.

(2) Wrapping paper; packaging materials namely, plastic film, packing tape, paper, foam pellets, bubble wrap,foam padding, gift boxes; cardboard boxes; cardboard; stationery, namely writing paper, gift cards, note cards, gift tags, gift bags, envelopes; artists materials namely paint, paint brushes, canvasses, painting pallets, artists' pastels, artists' pencils, sketchbooks, crayons, markers, bristol board, pens; calendars; note books; printed matter and publications namely, pamphlets, brochures, manuals, newspapers, booklets, books, song books, informational flyers, magazine inserts, newsletters, journals, magazines, maps, announcement cards, flash cards, posters, printed emblems, printed invitations, printed postcards and greeting cards, printed tickets, catalogues for consumer goods.

(3) Leather and imitations of leather; canvas bags; handbags; travelling bags; umbrellas, parasols.

(4) Clothing, namely, bathing costumes, bathing suits, bathing trunks, bathrobes, beachwear, belts, Bermuda shorts, bicycle gloves, bikinis, blazers, blouses, board shorts, boxer briefs, boxer shorts, briefs, cardigans, coats, dresses, dressing gowns, fleece jackets, fleece pullovers, fleece shorts, foul weather gear, foundation garments, gloves, greatcoats, gym shorts, gym suits, heavy jackets, hosiery, jackets, jeans, jerkins, jerseys, jogging pants, jogging suits, jumpers, jumpsuits, knickers, knit shirts, anoraks, light reflecting coats and jackets, loungewear, mittens, nightwear, overcoats, pajamas, panties, pants, parkas, polo shirts, pullovers, rainwear, rugby shorts, rugby tops, scarves, shirts, shorts, short-sleeved or long-sleeved T-shirts, short-sleeved shirts, singlets, ski wear, ski jackets, ski pants, ski suits, skirts, sleepwear, socks, sport coats, sports jackets, sports shirts, stockings, suits, surf wear, sweat shirts, sweat shorts, sweat pants, swim wear, tank tops, tights, top coats, track pants, track suits, trousers, trunks, T-shirts, underclothes, underpants, undershirts, underwear, vests, waistcoats, walking shorts, warm up suits, waterproof jackets and pants, wind coats, wind resistant jackets, wind cheaters, bridal wear; footwear, namely, athletic footwear, beach footwear, boots, children's footwear, rain footwear, evening footwear, dress shoes, slippers, shoes, casual footwear; headgear namely, bandanas, berets, baseball caps, beanies, caps, hats, head scarves, winter hats.

SERVICES

(1) Price comparison services; advertising services provided for the benefit of others; business organisation of escrow accounts; retail services connected with the sale of a wide variety of gifts namely, clothing, footwear, headgear, bridal wear, ties, cufflinks, handkerchiefs, fancy dress accessories, pharmaceutical preparations, medicines, health supplements, homeopathic medicines and treatments, pets, pet accessories and supplies, household electrical goods, electrical goods for entertaining, namely radios, docketing stations, tvs, tablets, movie screens and projectors, stereo speakers and equipment, disco balls, video game receivers, games and accessories; video cameras, smart phones, computers, photographic and cinematographic goods, camcorders, beauty products and accessories, accessories for the hair, hygiene products, cosmetic products, perfumery, printed matter, photographs, books, publications, playing cards, Christmas decorations, party decorations, party supplies, barware, stationery items, artists' materials, art and crafts materials, kitchenware, furniture, linens, fabrics, tableware, baby furniture, car seats, high chairs, bouncy charis, linens, accessories, baby clothing and toys; food and alcoholic beverages, non-alcoholic beverages, seeds, plants and flowers, garden products and furniture, wall and floor coverings, home improvement goods namely, tiles, cabinetry, flooring, kitchen and bathroom fixtures, lights, knobs, handles, doors, windows, roofing materials, interlock stones, countertops, office goods, namely desks, chairs, filing cabinets, computer stands, book shelves, storage cabinets, art, sporting goods and equipment, angling equipment, fishing tackle, goods related to shooting, namely guns and skeets, goods for walking, namely pedometers and walking sticks, climbing frames, tree houses, wendy houses, sheds, garages, picnic baskets, blankets and picnic accessories; bird watching equipment, horse riding equipment, camping equipment, jewellery, watches, horological and chronometric instruments, cutlery and crockery, bedroom and bathroom wares, appliances and ornaments, gardening tools and implements, leather goods, namely, handbags, purses, wallets, briefcases, computer cases, suitcases, travel trunks, belts, purses, wallets, sunglasses, glasses, binoculars, telescopes, magnifying glasses, umbrellas, key rings, luggage, bags, handbags, cases for electronic apparatus and gadgets, vehicles, namely cars, trucks, scooters, motorcycles, boats, aeroplanes, jets, helicopters, bicycles, children's scooters, major household appliances, furnaces, air conditioning units, candles, candle sticks and holders, garden lights and lighting systems, musical instruments, toys, games and playthings, board games, smokers' articles, downloadable music, films, television programmes and ringtones, magazine and periodical publication subscriptions, memberships to sporting, health and well-being clubs, beauty therapies and treatments, parts and fittings for all of the aforesaid goods, gift vouchers, gift vouchers for health and beauty treatments, hotels, food and drink, restaurants and eating out, tickets and gift vouchers for entertainment, cultural and sporting events, activities and services, including balloon rides, skydiving, parachute jumping, bungee jumping, bike and bicycle tours, helicopter and aeroplane rides, flight simulator rides, race car driving experiences, track days, racing car driving, motorcycle riding, heavy machinery driving, off-road driving, rafting, boating, power-boating, kayaking, surfing, body boarding, windsurfing, wake-boarding, wake-surfing, wake-skating, flow-boarding and other water sports, walking tours, fishing trips, sailing, rock climbing, skiing, snow-boarding, hand-gliding, extreme/adrenalin sports, paint balling, combat training, astronaut training, scuba diving, sporting challenges, theme park days out, sightseeing tours, wild life watching, tours and visits involving wild life, tours and visits of places of interest, wine tours, TV and movie set tours, arranging travel tours and special interest tour packages for others, scenic tours, horse riding and other equestrian based activities, wine tasting, cookery courses, cocktail making, chocolate making, dancing lessons, shooting, archery and recreational days out and holiday vouchers; information, advisory and consultancy services relating to the aforesaid.

(2) Provision of a forum for consumers to compile a list of desired goods and services and enabling others to conveniently view those lists.

(3) Arranging delivery of gifts; gift wrapping services; transportation services, namely arranging transportation for others; charitable services, namely the distribution of unwanted goods; information, advisory and consultancy services relating to the aforesaid.

(4) Assisting consumers with the compilation of a list of desired goods and services, namely providing a website wherein consumers can save information on a variety of desired goods and services from third parties and where lists and details of said desired goods and services can be viewed by others; provision of advice in relation to the selection of gifts; providing product information assistance to consumers in selecting goods and services; operation of a gift list service; information, advisory and consultancy services relating to the aforesaid, including all of the aforesaid services provided on-line.

GOODS

Machines for splicing, sealing, crimping, stripping and cutting wires and cables; electrically powered scrap chopper; machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines; machines for manufacturing connectors; machines for manufacturing cables and wires; machines for manufacturing switches, circuit boards, circuit board components and electric relays; machines for manufacturing and assembling cables; molding machines; metalworking machines; machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards; components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors,machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards; automotive parts, namely adhesive sealing gels, heat shrink tubing, terminal blocks, electronic sensors and switches, patching connectors, relays, switching controllers and electronic cables; printed circuit board assembly and manufacturing machines; label machines; machines for terminating cables and wires; crimping machines and harness making machines; hand tools and implements (hand-operated); electronic hand tools and implements; parts and components for hand tools; electronic hand tools; apparatus and instruments for conducting electricity, namely electric cables and wires and connection fittings therefor; apparatus and instruments for switching electricity, namely circuit breakers, electric relays and knobs; apparatus and instruments for transforming electricity, namely electric transformers; apparatus and instruments for regulating and controlling electricity, namely circuit breakers, electric relays and knobs; components of apparatus for recording, transmission or reproduction of sound or images, namely, cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video cameras, audio receivers, audio speakers, audio transmitters and audio and video cassette recorders; automatic vending machines and mechanisms for coin operated apparatus; cash registers; computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods; circuit breakers;

electronic and optical relays, sensors and switches; heat sinks; frames, covers, knobs, switches and timers for electronic and telecommunications equipment, namely network routers, network servers; electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; electrical connectors for cables; electronic connectors for circuit boards; electrical power connectors; cable connectors; audio/video cable connectors; connectors for Ethernet communications; fibre optic connectors; plug-in connectors for computer modems and relays; housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; housing for electrical connectors for cables; housing for electronic connectors for circuit boards; housing for electrical power connectors; housing for cable connectors; housing for audio/video cable connectors; housing for connectors for Ethernet communications; cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels; cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables; wires, namely, electrical wires; electrical and fiber optic harnesses; cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables; cable clamps, link boxes to ground and protect shields of high voltage cables; accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets; electrical cables for lighting installations; components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips; electrical cable ducts; components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards; communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards; modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies ; and computer software for use in operating and managing telecommunications systems and equipment, namely, local area network operating software, network access server operating software, wide area network operating software, virtual private network operating software, and the communications over such systems; loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit; transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines; fuse panels; computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals; remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network; audio distribution amplifiers; speaker monitors; jackfields;

communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils; solid state telegraph relays; battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers; direct current ammeters; voltage transformers; power transformers; current sensors; magnetic amplifiers; broadcast filters; electrical, electronic and magnetic controllers and relays for motors; power supplies, namely electrical power connectors and power transformers; relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields; electronic terminals, namely secure terminals for electronic transmissions; cable splices; wire splices; electronic splices; chip carrier sockets; circuit boards; printed circuit boards; electronic connectors for circuit boards; Ethernet adapters; computer network adapters; fiber optic adapters; cable adapters; proximity sensors; temperature sensors; thermal sensors; timing sensors; liquid level sensors; pressure sensors; automotive sensors namely, shifting sensors, breaking sensors, acceleration sensors, temperature sensors, liquid level sensors, motion sensors, pressure sensors, proximity sensors, timing sensors; position sensors; switching sensors; angle sensors; engine speed sensors; rotation sensors; voltage sensors; frequency sensors; phase sensors; underfrequency sensors; current sensors; displacement sensors; solid-state sensors; magnetic sensors; radar sensors; inductive sensors, namely, electronic proximity sensors; gas sensors; components for wireless networks, namely, base stations, signal amplifiers, and fiber panels; antennas for radios, stereos, telephones, cars, ships, planes, cell phones, laptops, gaming consoles and global positioning systems; antennas with a tuning element, a coax cable and connector, shields and ground; receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers; GPS receivers; circuit boards; power distribution systems comprising wire grids with voltage regulators; multi-circuit power strips; receptacles, namely, power cords and extension cords ; touch screens, namely, computer, telephone, appliance and interactive display touch screens; touch computers; computer monitors; computer monitor frames; computer network switches and routers; computer networking components, namely splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors; racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets; external backup hard disk drive; fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications; plug-in components for computer modems, namely, memory sockets and cable assemblies; equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines; electrical chokes; inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors; LAN protocol magnetics; magnetic modules for suppression of electrical interference in LAN protocol; Ethernet and telecommunications networks, namely network routers and servers; resistors; power resistors; electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches; cards with computer chips and integrated circuits for carrying data, namely, computer interface and memory cards; backplanes; backplane interconnects; fiber optic attenuators; multiplexers; electronic amplifiers for increasing the power of an electric, audio or visual signal; sleeves for cables, wires, and voltage lines; electronic filters; power line filters; signal filters; diplexors; capacitors; circulators; isolators; resistors; cable and modular couplers; batteries for supply of energy, namely, general purpose batteries; battery terminals used to connect a load or charger to a single cell or multiple-cell battery; microwave products, namely, microwave harness assemblies and microwave connectors; signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters; signal modulators; electrical converters; Ethernet fibre media converters; heat sinks; computer heat sinks; meters; radio frequency identification tags; circuit protection devices, namely circuit breakers; fuses; radar systems; RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters; indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors; cabinets for holding and organizing telecommunications infrastructure cabling and connectors; panels used for mounting telecommunications equipment connectors to upright walls; heat and cold shrinkable enclosures and wraps; adhesive labels; decals; identification tags; markers for wires, cables, hoses, pipes and harnesses; tools for applying adhesive labels, decals, tags, and markers; fibre optic panels; relay panels; switch panels; radios; radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors; power converters; keypads; computer and video monitors; integrated circuits; connectors for electrical components; sleeves for covering electrical and telecommunication cables; connectors for telecommunication components; electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves; surge arrestors; overvoltage arrestors; lightning arrestors; components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes; vibration indicators; electrical fuses; light emitting diodes; electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks; voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks; fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers; computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks and the communications over such systems; extruded plastics for use in manufacturing; plastic pipes; rubber pipes; heat-shrinkable tubing; rubber products, namely, electrical insulation; electrical insulation; hoses for carrying gas discharge; hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction; insulation for the protection of cables and cable joints; protective plastic wraps for cables; tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins; polyester film; adhesive cements; adhesive sealants; adhesive thermosets; adhesive thermoplastics.

SERVICES

Building construction; repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; automotive repair and maintenance; automobile diagnostic services; automobile body shop services; customer service in the field of automotive repair; retail sale of automobile parts; installation and repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks; engineering, installation, maintenance, and repair services for satellite, telephone, cable and cellular communications networks, computer networks, networking of information and communications received by telephone, internet, radio, video and satellite; wiring of buildings for telecommunication transmissions, namely, satellite, wireless, telephone, cable, cellular, wide-area network, fax, radio, broadband and microwave transmissions; services to install telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; installation of electrical systems; installation, maintenance and repair of machines for: splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for aforesaid machines and machine tools; carrier services provided by means of fibre optic cables, telephone lines, wireless transmission, radio and microwave transmission, satellite transmission; plumbing services; installation and repair of heating and cooling systems in buildings; installation, maintenance and repair of electrical equipment and systems for the complete list of goods that follow: machines for splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards, automotive parts, printed circuit board assembly and manufacturing machines, label machines, machines for terminating cables and wires, crimping machines and harness making machines, hand tools and implements (hand-operated), electronic hand tools and implements, parts and components for hand tools, electronic hand tools, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, components of apparatus for recording, transmission or reproduction of sound or images, namely, components of cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video recorders, audio receivers, audio speakers, audio transmitters, and audio recorders, automatic vending machines and mechanisms for coin operated apparatus, cash registers, computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods, circuit breakers, electronic and optical relays, sensors and switches, heat sinks, frames, covers, knobs, switches and timers for electronic and telecommunications equipment , electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, electrical connectors for cables, electronic connectors for circuit boards, electrical power connectors, cable connectors, audio/video cable connectors, connectors for Ethernet communications, fibre optic connectors, plug-in connectors for computer modems and relays, housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, housing for electrical connectors for cables, housing for electronic connectors for circuit boards, housing for electrical power connectors, housing for cable connectors, housing for audio/video cable connectors, housing for connectors for Ethernet communications, cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels, cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables, wires, namely, electrical wires, electrical and fiber optic harnesses, cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables, cable clamps, link boxes to ground and protect shields of high voltage cables, accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets, electrical cables for lighting installations, components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips, electrical cable ducts, components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards, communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards, modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies , and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems, loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit, transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines, fuse panels, computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals, remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network, audio distribution amplifiers; speaker monitors, jackfields, communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils, solid state telegraph relays, battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers, direct current ammeters, voltage transformers, power transformers, current sensors, magnetic amplifiers, broadcast filters, electrical, electronic and magnetic controllers and relays for motors, power supplies, namely, uninterruptible power supplies and power transformers, relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields, electronic terminals, cable splices, wire splices, electronic splices, chip carrier sockets, circuit boards, printed circuit boards, electronic connectors for circuit boards, Ethernet adapters, computer network adapters, fiber optic adapters, cable adapters, proximity sensors, temperature sensors, thermal sensors, timing sensors, liquid level sensors, pressure sensors, automotive sensors, position sensors, switching sensors, angle sensors , engine speed sensors, rotation sensors, voltage sensors, frequency sensors, phase sensors, underfrequency sensors, current sensors, displacement sensors, solid-state sensors, magnetic sensors, radar sensors, inductive sensors, namely, electronic proximity sensors, gas sensors, components for wireless networks, namely, base stations, signal amplifiers, and fiber panels, antennas, antenna systems comprised of a combination of antennas with a tuning element, a coax cable and connector, shields and grounds, receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers, GPS receivers, circuit boards, power distribution systems comprising wire grids with voltage regulators, multi-circuit power strips, receptacles, namely, power cords and extension cords , touch screens, namely, computer, telephone, appliance and interactive display touch screens, touch computers, computer monitors, computer monitor frames, computer network switches and routers, splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors, racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets, external backup hard disk drive, fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications, plug-in components for computer modems, namely, memory sockets and cable assemblies, equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines, electrical chokes, inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors, LAN protocol magnetics, magnetic modules for suppression of electrical interference in LAN protocol, Ethernet and telecommunications networks, resistors, power resistors, electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches, cards with computer chips and integrated circuits for carrying data, backplanes, backplane interconnects, fiber optic attenuators, multiplexers, electronic amplifiers for increasing the power of an electric, audio or visual signal, sleeves for cables, wires, and voltage lines, electronic filters, power line filters, signal filters, diplexors, capacitors, circulators, isolators, resistors, cable and modular couplers, batteries for supply of energy, namely, general purpose batteries, battery terminals, microwave products, namely, microwave harness assemblies and microwave connectors , signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters, signal modulators, electrical converters, Ethernet fibre media converters, heat sinks, computer heat sinks, meters, electronic controllers that hold a process or condition at a desired level or status by comparison of the actual value with the desired value, radio frequency identification tags, circuit protection devices, namely circuit breakers, fuses, radar systems, RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters, indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors, cabinets for holding and organizing telecommunications infrastructure cabling and connectors, panels used for mounting telecommunications equipment connectors to upright walls, heat and cold shrinkable enclosures and wraps, adhesive labels, decals, identification tags, markers for wires, cables, hoses, pipes and harnesses, tools for applying adhesive labels, decals, tags, and markers, fibre optic panels, relay panels, switch panels, radios, radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors, power converters, keypads, computer and video monitors, integrated circuits, connectors for electrical components, sleeves for covering electrical and telecommunication cables, connectors for telecommunication components, electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves, surge arrestors, overvoltage arrestors, lightning arrestors, components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes, vibration indicators, electrical fuses, light emitting diodes, electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks, voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks, fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers, computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks, and the communications over such systems, extruded plastics for use in manufacturing, plastic pipes, rubber pipes, heat-shrinkable tubing, rubber products, namely, electrical insulation, electrical insulation, hoses for carrying gas discharge, hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction, insulation for the protection of cables and cable joints, protective plastic wraps for cables, tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins, polyester film, adhesive cements, adhesive sealants, adhesive thermosets, adhesive thermoplastics.

CLAIMS

Priority Filing Date: SWITZERLAND December 01, 2010, Application No: 63126/2010 in association with the same kind of goods and in association with the same kind of services. Used in SWITZERLAND on goods and on services. Registered in or for SWITZERLAND on May 03, 2011 under No. 614768 on goods and on services. Proposed Use in CANADA on goods and on services

Application Number 1,528,005 **Filing Date** 2011-05-16
Language of Application English

GOODS

Machines for splicing, sealing, crimping, stripping and cutting wires and cables; electrically powered scrap chopper; machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines; machines for manufacturing connectors; machines for manufacturing cables and wires; machines for manufacturing switches, circuit boards, circuit board components and electric relays; machines for manufacturing and assembling cables; molding machines; metalworking machines; machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards; components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors,machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards; automotive parts, namely adhesive sealing gels, heat shrink tubing, terminal blocks, electronic sensors and switches, patching connectors, relays, switching controllers and electronic cables; printed circuit board assembly and manufacturing machines; label machines; machines for terminating cables and wires; crimping machines and harness making machines; hand tools and implements (hand-operated); electronic hand tools and implements; parts and components for hand tools; electronic hand tools; apparatus and instruments for conducting electricity, namely electric cables and wires and connection fittings therefor; apparatus and instruments for switching electricity, namely circuit breakers, electric relays and knobs; apparatus and instruments for transforming electricity, namely electric transformers; apparatus and instruments for regulating and controlling electricity, namely circuit breakers, electric relays and knobs; components of apparatus for recording, transmission or reproduction of sound or images, namely, cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video cameras, audio receivers, audio speakers, audio transmitters and audio and video cassette recorders; automatic vending machines and mechanisms for coin operated apparatus; cash registers; computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods; circuit breakers;

electronic and optical relays, sensors and switches; heat sinks; frames, covers, knobs, switches and timers for electronic and telecommunications equipment, namely network routers, network servers; electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; electrical connectors for cables; electronic connectors for circuit boards; electrical power connectors; cable connectors; audio/video cable connectors; connectors for Ethernet communications; fibre optic connectors; plug-in connectors for computer modems and relays; housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; housing for electrical connectors for cables; housing for electronic connectors for circuit boards; housing for electrical power connectors; housing for cable connectors; housing for audio/video cable connectors; housing for connectors for Ethernet communications; cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels; cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables; wires, namely, electrical wires; electrical and fiber optic harnesses; cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables; cable clamps, link boxes to ground and protect shields of high voltage cables; accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets; electrical cables for lighting installations; components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips; electrical cable ducts; components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards; communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards; modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies ; and computer software for use in operating and managing telecommunications systems and equipment, namely, local area network operating software, network access server operating software, wide area network operating software, virtual private network operating software, and the communications over such systems; loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit; transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines; fuse panels; computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals; remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network; audio distribution amplifiers; speaker monitors; jackfields;

communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils; solid state telegraph relays; battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers; direct current ammeters; voltage transformers; power transformers; current sensors; magnetic amplifiers; broadcast filters; electrical, electronic and magnetic controllers and relays for motors; power supplies, namely electrical power connectors and power transformers; relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields; electronic terminals, namely secure terminals for electronic transmissions; cable splices; wire splices; electronic splices; chip carrier sockets; circuit boards; printed circuit boards; electronic connectors for circuit boards; Ethernet adapters; computer network adapters; fiber optic adapters; cable adapters; proximity sensors; temperature sensors; thermal sensors; timing sensors; liquid level sensors; pressure sensors; automotive sensors namely, shifting sensors, breaking sensors, acceleration sensors, temperature sensors, liquid level sensors, motion sensors, pressure sensors, proximity sensors, timing sensors; position sensors; switching sensors; angle sensors; engine speed sensors; rotation sensors; voltage sensors; frequency sensors; phase sensors; underfrequency sensors; current sensors; displacement sensors; solid-state sensors; magnetic sensors; radar sensors; inductive sensors, namely, electronic proximity sensors; gas sensors; components for wireless networks, namely, base stations, signal amplifiers, and fiber panels; antennas for radios, stereos, telephones, cars, ships, planes, cell phones, laptops, gaming consoles and global positioning systems; antennas with a tuning element, a coax cable and connector, shields and ground; receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers; GPS receivers; circuit boards; power distribution systems comprising wire grids with voltage regulators; multi-circuit power strips; receptacles, namely, power cords and extension cords ; touch screens, namely, computer, telephone, appliance and interactive display touch screens; touch computers; computer monitors; computer monitor frames; computer network switches and routers; computer networking components, namely splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors; racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets; external backup hard disk drive; fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications; plug-in components for computer modems, namely, memory sockets and cable assemblies; equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines; electrical chokes; inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors; LAN protocol magnetics; magnetic modules for suppression of electrical interference in LAN protocol; Ethernet and telecommunications networks, namely network routers and servers; resistors; power resistors; electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches; cards with computer chips and integrated circuits for carrying data, namely, computer interface and memory cards; backplanes; backplane interconnects; fiber optic attenuators; multiplexers; electronic amplifiers for increasing the power of an electric, audio or visual signal; sleeves for cables, wires, and voltage lines; electronic filters; power line filters; signal filters; diplexors; capacitors; circulators; isolators; resistors; cable and modular couplers; batteries for supply of energy, namely, general purpose batteries; battery terminals used to connect a load or charger to a single cell or multiple-cell battery; microwave products, namely, microwave harness assemblies and microwave connectors; signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters; signal modulators; electrical converters; Ethernet fibre media converters; heat sinks; computer heat sinks; meters; radio frequency identification tags; circuit protection devices, namely circuit breakers; fuses; radar systems; RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters; indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors; cabinets for holding and organizing telecommunications infrastructure cabling and connectors; panels used for mounting telecommunications equipment connectors to upright walls; heat and cold shrinkable enclosures and wraps; adhesive labels; decals; identification tags; markers for wires, cables, hoses, pipes and harnesses; tools for applying adhesive labels, decals, tags, and markers; fibre optic panels; relay panels; switch panels; radios; radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors; power converters; keypads; computer and video monitors; integrated circuits; connectors for electrical components; sleeves for covering electrical and telecommunication cables; connectors for telecommunication components; electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves; surge arrestors; overvoltage arrestors; lightning arrestors; components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes; vibration indicators; electrical fuses; light emitting diodes; electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks; voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks; fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers; computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks and the communications over such systems; extruded plastics for use in manufacturing; plastic pipes; rubber pipes; heat-shrinkable tubing; rubber products, namely, electrical insulation; electrical insulation; hoses for carrying gas discharge; hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction; insulation for the protection of cables and cable joints; protective plastic wraps for cables; tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins; polyester film; adhesive cements; adhesive sealants; adhesive thermosets; adhesive thermoplastics.

SERVICES

Building construction; repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; automotive repair and maintenance; automobile diagnostic services; automobile body shop services; customer service in the field of automotive repair; retail sale of automobile parts; installation and repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks; engineering, installation, maintenance, and repair services for satellite, telephone, cable and cellular communications networks, computer networks, networking of information and communications received by telephone, internet, radio, video and satellite; wiring of buildings for telecommunication transmissions, namely, satellite, wireless, telephone, cable, cellular, wide-area network, fax, radio, broadband and microwave transmissions; services to install telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; installation of electrical systems; installation, maintenance and repair of machines for: splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for aforesaid machines and machine tools; carrier services provided by means of fibre optic cables, telephone lines, wireless transmission, radio and microwave transmission, satellite transmission; plumbing services; installation and repair of heating and cooling systems in buildings; installation, maintenance and repair of electrical equipment and systems for the complete list of goods that follow: machines for splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards, automotive parts, printed circuit board assembly and manufacturing machines, label machines, machines for terminating cables and wires, crimping machines and harness making machines, hand tools and implements (hand-operated), electronic hand tools and implements, parts and components for hand tools, electronic hand tools, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, components of apparatus for recording, transmission or reproduction of sound or images, namely, components of cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video recorders, audio receivers, audio speakers, audio transmitters, and audio recorders, automatic vending machines and mechanisms for coin operated apparatus, cash registers, computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods, circuit breakers, electronic and optical relays, sensors and switches, heat sinks, frames, covers, knobs, switches and timers for electronic and telecommunications equipment , electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, electrical connectors for cables, electronic connectors for circuit boards, electrical power connectors, cable connectors, audio/video cable connectors, connectors for Ethernet communications, fibre optic connectors, plug-in connectors for computer modems and relays, housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, housing for electrical connectors for cables, housing for electronic connectors for circuit boards, housing for electrical power connectors, housing for cable connectors, housing for audio/video cable connectors, housing for connectors for Ethernet communications, cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels, cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables, wires, namely, electrical wires, electrical and fiber optic harnesses, cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables, cable clamps, link boxes to ground and protect shields of high voltage cables, accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets, electrical cables for lighting installations, components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips, electrical cable ducts, components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards, communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards, modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies , and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems, loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit, transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines, fuse panels, computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals, remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network, audio distribution amplifiers; speaker monitors, jackfields, communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils, solid state telegraph relays, battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers, direct current ammeters, voltage transformers, power transformers, current sensors, magnetic amplifiers, broadcast filters, electrical, electronic and magnetic controllers and relays for motors, power supplies, namely, uninterruptible power supplies and power transformers, relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields, electronic terminals, cable splices, wire splices, electronic splices, chip carrier sockets, circuit boards, printed circuit boards, electronic connectors for circuit boards, Ethernet adapters, computer network adapters, fiber optic adapters, cable adapters, proximity sensors, temperature sensors, thermal sensors, timing sensors, liquid level sensors, pressure sensors, automotive sensors, position sensors, switching sensors, angle sensors , engine speed sensors, rotation sensors, voltage sensors, frequency sensors, phase sensors, underfrequency sensors, current sensors, displacement sensors, solid-state sensors, magnetic sensors, radar sensors, inductive sensors, namely, electronic proximity sensors, gas sensors, components for wireless networks, namely, base stations, signal amplifiers, and fiber panels, antennas, antenna systems comprised of a combination of antennas with a tuning element, a coax cable and connector, shields and grounds, receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers, GPS receivers, circuit boards, power distribution systems comprising wire grids with voltage regulators, multi-circuit power strips, receptacles, namely, power cords and extension cords , touch screens, namely, computer, telephone, appliance and interactive display touch screens, touch computers, computer monitors, computer monitor frames, computer network switches and routers, splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors, racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets, external backup hard disk drive, fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications, plug-in components for computer modems, namely, memory sockets and cable assemblies, equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines, electrical chokes, inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors, LAN protocol magnetics, magnetic modules for suppression of electrical interference in LAN protocol, Ethernet and telecommunications networks, resistors, power resistors, electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches, cards with computer chips and integrated circuits for carrying data, backplanes, backplane interconnects, fiber optic attenuators, multiplexers, electronic amplifiers for increasing the power of an electric, audio or visual signal, sleeves for cables, wires, and voltage lines, electronic filters, power line filters, signal filters, diplexors, capacitors, circulators, isolators, resistors, cable and modular couplers, batteries for supply of energy, namely, general purpose batteries, battery terminals, microwave products, namely, microwave harness assemblies and microwave connectors , signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters, signal modulators, electrical converters, Ethernet fibre media converters, heat sinks, computer heat sinks, meters, electronic controllers that hold a process or condition at a desired level or status by comparison of the actual value with the desired value, radio frequency identification tags, circuit protection devices, namely circuit breakers, fuses, radar systems, RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters, indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors, cabinets for holding and organizing telecommunications infrastructure cabling and connectors, panels used for mounting telecommunications equipment connectors to upright walls, heat and cold shrinkable enclosures and wraps, adhesive labels, decals, identification tags, markers for wires, cables, hoses, pipes and harnesses, tools for applying adhesive labels, decals, tags, and markers, fibre optic panels, relay panels, switch panels, radios, radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors, power converters, keypads, computer and video monitors, integrated circuits, connectors for electrical components, sleeves for covering electrical and telecommunication cables, connectors for telecommunication components, electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves, surge arrestors, overvoltage arrestors, lightning arrestors, components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes, vibration indicators, electrical fuses, light emitting diodes, electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks, voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks, fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers, computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks, and the communications over such systems, extruded plastics for use in manufacturing, plastic pipes, rubber pipes, heat-shrinkable tubing, rubber products, namely, electrical insulation, electrical insulation, hoses for carrying gas discharge, hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction, insulation for the protection of cables and cable joints, protective plastic wraps for cables, tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins, polyester film, adhesive cements, adhesive sealants, adhesive thermosets, adhesive thermoplastics.

GOODS

Machines for splicing, sealing, crimping, stripping and cutting wires and cables; electrically powered scrap chopper; machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines; machines for manufacturing connectors; machines for manufacturing cables and wires; machines for manufacturing switches, circuit boards, circuit board components and electric relays; machines for manufacturing and assembling cables; molding machines; metalworking machines; machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards; components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors,machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards; automotive parts, namely adhesive sealing gels, heat shrink tubing, terminal blocks, electronic sensors and switches, patching connectors, relays, switching controllers and electronic cables; printed circuit board assembly and manufacturing machines; label machines; machines for terminating cables and wires; crimping machines and harness making machines; hand tools and implements (hand-operated); electronic hand tools and implements; parts and components for hand tools; electronic hand tools; apparatus and instruments for conducting electricity, namely electric cables and wires and connection fittings therefor; apparatus and instruments for switching electricity, namely circuit breakers, electric relays and knobs; apparatus and instruments for transforming electricity, namely electric transformers; apparatus and instruments for regulating and controlling electricity, namely circuit breakers, electric relays and knobs; components of apparatus for recording, transmission or reproduction of sound or images, namely, cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video cameras, audio receivers, audio speakers, audio transmitters and audio and video cassette recorders; automatic vending machines and mechanisms for coin operated apparatus; cash registers; computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods; circuit breakers; electronic and optical relays, sensors and switches; heat sinks; frames, covers, knobs, switches and timers for electronic and telecommunications equipment, namely network routers, network servers; electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; electrical connectors for cables; electronic connectors for circuit boards; electrical power connectors; cable connectors; audio/video cable connectors; connectors for Ethernet communications; fibre optic connectors; plug-in connectors for computer modems and relays; housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications; housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications; housing for electrical connectors for cables; housing for electronic connectors for circuit boards; housing for electrical power connectors; housing for cable connectors; housing for audio/video cable connectors; housing for connectors for Ethernet communications; cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels; cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables; wires, namely, electrical wires; electrical and fiber optic harnesses; cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables; cable clamps, link boxes to ground and protect shields of high voltage cables; accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets; electrical cables for lighting installations; components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips; electrical cable ducts; components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards; communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards; modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies ; and computer software for use in operating and managing telecommunications systems and equipment, namely, local area network operating software, network access server operating software, wide area network operating software, virtual private network operating software, and the communications over such systems; loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit; transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines; fuse panels; computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals; remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network; audio distribution amplifiers; speaker monitors; jackfields; communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils; solid state telegraph relays; battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers; direct current ammeters; voltage transformers; power transformers; current sensors; magnetic amplifiers; broadcast filters; electrical, electronic and magnetic controllers and relays for motors; power supplies, namely electrical power connectors and power transformers; relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields; electronic terminals, namely secure terminals for electronic transmissions; cable splices; wire splices; electronic splices; chip carrier sockets; circuit boards; printed circuit boards; electronic connectors for circuit boards; Ethernet adapters; computer network adapters; fiber optic adapters; cable adapters; proximity sensors; temperature sensors; thermal sensors; timing sensors; liquid level sensors; pressure sensors; automotive sensors namely, shifting sensors, breaking sensors, acceleration sensors, temperature sensors, liquid level sensors, motion sensors, pressure sensors, proximity sensors, timing sensors; position sensors; switching sensors; angle sensors; engine speed sensors; rotation sensors; voltage sensors; frequency sensors; phase sensors; underfrequency sensors; current sensors; displacement sensors; solid-state sensors; magnetic sensors; radar sensors; inductive sensors, namely, electronic proximity sensors; gas sensors; components for wireless networks, namely, base stations, signal amplifiers, and fiber panels; antennas for radios, stereos, telephones, cars, ships, planes, cell phones, laptops, gaming consoles and global positioning systems; antennas with a tuning element, a coax cable and connector, shields and ground; receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers; GPS receivers; circuit boards; power distribution systems comprising wire grids with voltage regulators; multi-circuit power strips; receptacles, namely, power cords and extension cords ; touch screens, namely, computer, telephone, appliance and interactive display touch screens; touch computers; computer monitors; computer monitor frames; computer network switches and routers; computer networking components, namely splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors; racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets; external backup hard disk drive; fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications; plug-in components for computer modems, namely, memory sockets and cable assemblies; equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines; electrical chokes; inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors; LAN protocol magnetics; magnetic modules for suppression of electrical interference in LAN protocol; Ethernet and telecommunications networks, namely network routers and servers; resistors; power resistors; electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches; cards with computer chips and integrated circuits for carrying data, namely, computer interface and memory cards; backplanes; backplane interconnects; fiber optic attenuators; multiplexers; electronic amplifiers for increasing the power of an electric, audio or visual signal; sleeves for cables, wires, and voltage lines; electronic filters; power line filters; signal filters; diplexors; capacitors; circulators; isolators; resistors; cable and modular couplers; batteries for supply of energy, namely, general purpose batteries; battery terminals used to connect a load or charger to a single cell or multiple-cell battery; microwave products, namely, microwave harness assemblies and microwave connectors; signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters; signal modulators; electrical converters; Ethernet fibre media converters; heat sinks; computer heat sinks; meters; radio frequency identification tags; circuit protection devices, namely circuit breakers; fuses; radar systems; RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters; indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors; cabinets for holding and organizing telecommunications infrastructure cabling and connectors; panels used for mounting telecommunications equipment connectors to upright walls; heat and cold shrinkable enclosures and wraps; adhesive labels; decals; identification tags; markers for wires, cables, hoses, pipes and harnesses; tools for applying adhesive labels, decals, tags, and markers; fibre optic panels; relay panels; switch panels; radios; radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors; power converters; keypads; computer and video monitors; integrated circuits; connectors for electrical components; sleeves for covering electrical and telecommunication cables; connectors for telecommunication components; electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves; surge arrestors; overvoltage arrestors; lightning arrestors; components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes; vibration indicators; electrical fuses; light emitting diodes; electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks; voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks; fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers; computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks and the communications over such systems; extruded plastics for use in manufacturing; plastic pipes; rubber pipes; heat-shrinkable tubing; rubber products, namely, electrical insulation; electrical insulation; hoses for carrying gas discharge; hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction; insulation for the protection of cables and cable joints; protective plastic wraps for cables; tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins; polyester film; adhesive cements; adhesive sealants; adhesive thermosets; adhesive thermoplastics.

SERVICES

Building construction; repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; automotive repair and maintenance; automobile diagnostic services; automobile body shop services; customer service in the field of automotive repair; retail sale of automobile parts; installation and repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks; engineering, installation, maintenance, and repair services for satellite, telephone, cable and cellular communications networks, computer networks, networking of information and communications received by telephone, internet, radio, video and satellite; wiring of buildings for telecommunication transmissions, namely, satellite, wireless, telephone, cable, cellular, wide-area network, fax, radio, broadband and microwave transmissions; services to install telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; installation of electrical systems; installation, maintenance and repair of machines for: splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for aforesaid machines and machine tools; carrier services provided by means of fibre optic cables, telephone lines, wireless transmission, radio and microwave transmission, satellite transmission; plumbing services; installation and repair of heating and cooling systems in buildings; installation, maintenance and repair of electrical equipment and systems for the complete list of goods that follow: machines for splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards, automotive parts, printed circuit board assembly and manufacturing machines, label machines, machines for terminating cables and wires, crimping machines and harness making machines, hand tools and implements (hand-operated), electronic hand tools and implements, parts and components for hand tools, electronic hand tools, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, components of apparatus for recording, transmission or reproduction of sound or images, namely, components of cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video recorders, audio receivers, audio speakers, audio transmitters, and audio recorders, automatic vending machines and mechanisms for coin operated apparatus, cash registers, computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods, circuit breakers, electronic and optical relays, sensors and switches, heat sinks, frames, covers, knobs, switches and timers for electronic and telecommunications equipment , electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, electrical connectors for cables, electronic connectors for circuit boards, electrical power connectors, cable connectors, audio/video cable connectors, connectors for Ethernet communications, fibre optic connectors, plug-in connectors for computer modems and relays, housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, housing for electrical connectors for cables, housing for electronic connectors for circuit boards, housing for electrical power connectors, housing for cable connectors, housing for audio/video cable connectors, housing for connectors for Ethernet communications, cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels, cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables, wires, namely, electrical wires, electrical and fiber optic harnesses, cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables, cable clamps, link boxes to ground and protect shields of high voltage cables, accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets, electrical cables for lighting installations, components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips, electrical cable ducts, components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards, communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards, modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies , and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems, loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit, transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines, fuse panels, computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals, remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network, audio distribution amplifiers; speaker monitors, jackfields, communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils, solid state telegraph relays, battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers, direct current ammeters, voltage transformers, power transformers, current sensors, magnetic amplifiers, broadcast filters, electrical, electronic and magnetic controllers and relays for motors, power supplies, namely, uninterruptible power supplies and power transformers, relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields, electronic terminals, cable splices, wire splices, electronic splices, chip carrier sockets, circuit boards, printed circuit boards, electronic connectors for circuit boards, Ethernet adapters, computer network adapters, fiber optic adapters, cable adapters, proximity sensors, temperature sensors, thermal sensors, timing sensors, liquid level sensors, pressure sensors, automotive sensors, position sensors, switching sensors, angle sensors , engine speed sensors, rotation sensors, voltage sensors, frequency sensors, phase sensors, underfrequency sensors, current sensors, displacement sensors, solid-state sensors, magnetic sensors, radar sensors, inductive sensors, namely, electronic proximity sensors, gas sensors, components for wireless networks, namely, base stations, signal amplifiers, and fiber panels, antennas, antenna systems comprised of a combination of antennas with a tuning element, a coax cable and connector, shields and grounds, receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers, GPS receivers, circuit boards, power distribution systems comprising wire grids with voltage regulators, multi-circuit power strips, receptacles, namely, power cords and extension cords , touch screens, namely, computer, telephone, appliance and interactive display touch screens, touch computers, computer monitors, computer monitor frames, computer network switches and routers, splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors, racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets, external backup hard disk drive, fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications, plug-in components for computer modems, namely, memory sockets and cable assemblies, equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines, electrical chokes, inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors, LAN protocol magnetics, magnetic modules for suppression of electrical interference in LAN protocol, Ethernet and telecommunications networks, resistors, power resistors, electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches, cards with computer chips and integrated circuits for carrying data, backplanes, backplane interconnects, fiber optic attenuators, multiplexers, electronic amplifiers for increasing the power of an electric, audio or visual signal, sleeves for cables, wires, and voltage lines, electronic filters, power line filters, signal filters, diplexors, capacitors, circulators, isolators, resistors, cable and modular couplers, batteries for supply of energy, namely, general purpose batteries, battery terminals, microwave products, namely, microwave harness assemblies and microwave connectors , signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters, signal modulators, electrical converters, Ethernet fibre media converters, heat sinks, computer heat sinks, meters, electronic controllers that hold a process or condition at a desired level or status by comparison of the actual value with the desired value, radio frequency identification tags, circuit protection devices, namely circuit breakers, fuses, radar systems, RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters, indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors, cabinets for holding and organizing telecommunications infrastructure cabling and connectors, panels used for mounting telecommunications equipment connectors to upright walls, heat and cold shrinkable enclosures and wraps, adhesive labels, decals, identification tags, markers for wires, cables, hoses, pipes and harnesses, tools for applying adhesive labels, decals, tags, and markers, fibre optic panels, relay panels, switch panels, radios, radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors, power converters, keypads, computer and video monitors, integrated circuits, connectors for electrical components, sleeves for covering electrical and telecommunication cables, connectors for telecommunication components, electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves, surge arrestors, overvoltage arrestors, lightning arrestors, components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes, vibration indicators, electrical fuses, light emitting diodes, electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks, voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks, fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers, computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks, and the communications over such systems, extruded plastics for use in manufacturing, plastic pipes, rubber pipes, heat-shrinkable tubing, rubber products, namely, electrical insulation, electrical insulation, hoses for carrying gas discharge, hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction, insulation for the protection of cables and cable joints, protective plastic wraps for cables, tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins, polyester film, adhesive cements, adhesive sealants, adhesive thermosets, adhesive thermoplastics.

electrical cable ducts; components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards; communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards; modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies ; and computer software for use in operating and managing telecommunications systems and equipment, namely, local area network operating software, network access server operating software, wide area network operating software, virtual private network operating software, and the communications over such systems; loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit; transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines; fuse panels; computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals; remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network; audio distribution amplifiers; speaker monitors; jackfields; communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils; solid state telegraph relays; battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers; direct current ammeters; voltage transformers; power transformers; current sensors; magnetic amplifiers; broadcast filters; electrical, electronic and magnetic controllers and relays for motors; power supplies, namely electrical power connectors and power transformers; relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields; electronic terminals, namely secure terminals for electronic transmissions; cable splices; wire splices; electronic splices; chip carrier sockets; circuit boards; printed circuit boards; electronic connectors for circuit boards; Ethernet adapters; computer network adapters; fiber optic adapters; cable adapters; proximity sensors; temperature sensors; thermal sensors; timing sensors; liquid level sensors; pressure sensors; automotive sensors namely, shifting sensors, breaking sensors, acceleration sensors, temperature sensors, liquid level sensors, motion sensors, pressure sensors, proximity sensors, timing sensors; position sensors; switching sensors; angle sensors; engine speed sensors; rotation sensors; voltage sensors; frequency sensors; phase sensors; underfrequency sensors; current sensors; displacement sensors; solid-state sensors; magnetic sensors; radar sensors; inductive sensors, namely, electronic proximity sensors; gas sensors; components for wireless networks, namely, base stations, signal amplifiers, and fiber panels; antennas for radios, stereos, telephones, cars, ships, planes, cell phones, laptops, gaming consoles and global positioning systems; antennas with a tuning element, a coax cable and connector, shields and ground; receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers; GPS receivers; circuit boards; power distribution systems comprising wire grids with voltage regulators; multi-circuit power strips; receptacles, namely, power cords and extension cords ; touch screens, namely, computer, telephone, appliance and interactive display touch screens; touch computers; computer monitors; computer monitor frames; computer network switches and routers; computer networking components, namely splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors; racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets; external backup hard disk drive; fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications; plug-in components for computer modems, namely, memory sockets and cable assemblies; equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines; electrical chokes; inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors; LAN protocol magnetics; magnetic modules for suppression of electrical interference in LAN protocol; Ethernet and telecommunications networks, namely network routers and servers; resistors; power resistors; electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches; cards with computer chips and integrated circuits for carrying data, namely, computer interface and memory cards; backplanes; backplane interconnects; fiber optic attenuators; multiplexers; electronic amplifiers for increasing the power of an electric, audio or visual signal; sleeves for cables, wires, and voltage lines; electronic filters; power line filters; signal filters; diplexors; capacitors; circulators; isolators; resistors; cable and modular couplers; batteries for supply of energy, namely, general purpose batteries; battery terminals used to connect a load or charger to a single cell or multiple-cell battery; microwave products, namely, microwave harness assemblies and microwave connectors; signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters; signal modulators; electrical converters; Ethernet fibre media converters; heat sinks; computer heat sinks; meters; radio frequency identification tags; circuit protection devices, namely circuit breakers; fuses; radar systems; RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters; indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors; cabinets for holding and organizing telecommunications infrastructure cabling and connectors; panels used for mounting telecommunications equipment connectors to upright walls; heat and cold shrinkable enclosures and wraps; adhesive labels; decals; identification tags; markers for wires, cables, hoses, pipes and harnesses; tools for applying adhesive labels, decals, tags, and markers; fibre optic panels; relay panels; switch panels; radios; radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors; power converters; keypads; computer and video monitors; integrated circuits; connectors for electrical components; sleeves for covering electrical and telecommunication cables; connectors for telecommunication components; electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves; surge arrestors; overvoltage arrestors; lightning arrestors; components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes; vibration indicators; electrical fuses; light emitting diodes; electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks; voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks; fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers; computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks and the communications over such systems; extruded plastics for use in manufacturing; plastic pipes; rubber pipes; heat-shrinkable tubing; rubber products, namely, electrical insulation; electrical insulation; hoses for carrying gas discharge; hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction; insulation for the protection of cables and cable joints; protective plastic wraps for cables; tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins; polyester film; adhesive cements; adhesive sealants; adhesive thermosets; adhesive thermoplastics.

SERVICES

Building construction; repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; automotive repair and maintenance; automobile diagnostic services; automobile body shop services; customer service in the field of automotive repair; retail sale of automobile parts; installation and repair of telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks; engineering, installation, maintenance, and repair services for satellite, telephone, cable and cellular communications networks, computer networks, networking of information and communications received by telephone, internet, radio, video and satellite; wiring of buildings for telecommunication transmissions, namely, satellite, wireless, telephone, cable, cellular, wide-area network, fax, radio, broadband and microwave transmissions; services to install telecommunication networks, namely satellite, wireless, telephone, cable and cellular communications; installation of electrical systems; installation, maintenance and repair of machines for: splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for aforesaid machines and machine tools; carrier services provided by means of fibre optic cables, telephone lines, wireless transmission, radio and microwave transmission, satellite transmission; plumbing services; installation and repair of heating and cooling systems in buildings; installation, maintenance and repair of electrical equipment and systems for the complete list of goods that follow: machines for splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, machine tools, namely, tools for manufacturing wire harnesses and printed circuit boards, components and accessories for machines for terminating, splicing, sealing, crimping, stripping and cutting wires and cables, electrically powered scrap chopper, machines for repairing electronic circuit board connectors, wire processing machines, cable striping and twisting machines, machines for manufacturing connectors, machines for manufacturing and terminating cables and wires, machines for manufacturing switches, circuit boards, circuit board components and electric relays, machines for manufacturing and assembling cables, molding machines, metalworking machines, tools for manufacturing wire harnesses and printed circuit boards, automotive parts, printed circuit board assembly and manufacturing machines, label machines, machines for terminating cables and wires, crimping machines and harness making machines, hand tools and implements (hand-operated), electronic hand tools and implements, parts and components for hand tools, electronic hand tools, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, components of apparatus for recording, transmission or reproduction of sound or images, namely, components of cameras, digital cameras, video monitors, video screens, video transmitters, video and audio surveillance systems, digital video recorders, audio receivers, audio speakers, audio transmitters, and audio recorders, automatic vending machines and mechanisms for coin operated apparatus, cash registers, computer operating programs, computer operating systems, computer servers, computer interface boards, computer interface cards, computer memory cards, computer hardware, computer disk drives, computer chips, computer scanners, computer mouse, computer network adapters, computer printers, computer monitors, computer cabling and the parts and accessories of and for aforesaid goods, circuit breakers, electronic and optical relays, sensors and switches, heat sinks, frames, covers, knobs, switches and timers for electronic and telecommunications equipment , electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, electrical connectors for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, electrical connectors for cables, electronic connectors for circuit boards, electrical power connectors, cable connectors, audio/video cable connectors, connectors for Ethernet communications, fibre optic connectors, plug-in connectors for computer modems and relays, housing for electrical connectors for wire-to-wire, wire-to-circuit board, and circuit board-to-circuit board applications, housing for electrical connector systems for wire-to-wire and wire-to-circuit board and circuit board-to-circuit board applications, housing for electrical connectors for cables, housing for electronic connectors for circuit boards, housing for electrical power connectors, housing for cable connectors, housing for audio/video cable connectors, housing for connectors for Ethernet communications, cable components, namely, punch down blocks, cable jacks, cable plugs, patch cords, patch panels, cables, namely, fiber optic, battery, audio/video, submarine, power, computer, coaxial, electric, telephone, and internet cables, wires, namely, electrical wires, electrical and fiber optic harnesses, cable ends for fiber optic, submarine, ribbon, audio, video and telecommunications cables, cable clamps, link boxes to ground and protect shields of high voltage cables, accessories for high voltage cables in both overhead and underground installations, namely, squirrel guards, creepage extenders, joints for power cables, ducting sealing systems, link boxes, power cable joints, power cable splices, power cable sleeves, power cable end seals, power cable terminations, switchgear connections systems, raptor protection covers, electric insulation conductor covers, power cable connection sockets, electrical cables for lighting installations, components for the spatial arrangement and organization of electrical and fibre optic networks and of telecommunications equipment, namely, racks, brackets, enclosures, rings, clips, chassis, mounting shelves, and designation strips, electrical cable ducts, components for transmission through electrical or fibre optic networks, namely, splice trays, management trays, dividers, spider-fan out units, mandrels, channels, voltage surge protectors, jacks, plugs, jack field, patch panel, terminal block, connection panels, patching cord, patching connector, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, patch panel modules, terminal block interfaces, power supplies, switches, relays, data line monitors, switching controllers, monitoring controllers, switch cards, cross connect systems, digital cross connect systems, transmission circuit boards, sub-boards, communication equipment, namely, electrical jacks, connection panels, signal repeaters, signal conditioners, communication distribution frames, fiber optic couplers, fiber optic wave length division multiplexer/demultiplexers, transmission circuit boards, modular equipment for testing private communications lines and communications panels connected to private communications lines, namely, for use in the transmission or transfer of voice, audio, video, text and data by broadband, broadcasting, cablecasting, coaxial cable, copper wire, fiber optic, radio, telephone, twisted pair, wire, wireless and other telecommunications technologies , and computer software for use in operating and managing telecommunications systems and equipment, and the communications over such systems, loop back test systems for monitoring and testing two-wire communication lines comprising a transmitter and a receiver, sold as a unit, transmitters and receivers used in loop back test systems for monitoring and testing two-wire communication lines, fuse panels, computer systems for circuit monitoring and providing telemetry diagnosis and information in a remote communication system network, video display terminals, remote terminal and telemetry units for monitoring and providing telemetry diagnosis and information in a remote communication system network, audio distribution amplifiers; speaker monitors, jackfields, communication components and devices, namely, terminal blocks, conference bridges, jack panels, jacks, patch cords, plugs, lamp sockets, lamp caps, telephone coils, repeat coils, solid state telegraph relays, battery chargers, namely, aircraft battery chargers and industrial and leisure vehicle battery chargers, direct current ammeters, voltage transformers, power transformers, current sensors, magnetic amplifiers, broadcast filters, electrical, electronic and magnetic controllers and relays for motors, power supplies, namely, uninterruptible power supplies and power transformers, relays for use in electronics in the automotive, rail, medical, telecommunication, industrial and computer fields, electronic terminals, cable splices, wire splices, electronic splices, chip carrier sockets, circuit boards, printed circuit boards, electronic connectors for circuit boards, Ethernet adapters, computer network adapters, fiber optic adapters, cable adapters, proximity sensors, temperature sensors, thermal sensors, timing sensors, liquid level sensors, pressure sensors, automotive sensors, position sensors, switching sensors, angle sensors , engine speed sensors, rotation sensors, voltage sensors, frequency sensors, phase sensors, underfrequency sensors, current sensors, displacement sensors, solid-state sensors, magnetic sensors, radar sensors, inductive sensors, namely, electronic proximity sensors, gas sensors, components for wireless networks, namely, base stations, signal amplifiers, and fiber panels, antennas, antenna systems comprised of a combination of antennas with a tuning element, a coax cable and connector, shields and grounds, receivers, namely, audio, global positioning, stereo, telephone, video, optical, fibre optic, microwave, radio, wireless, broadband, and electrical receivers, GPS receivers, circuit boards, power distribution systems comprising wire grids with voltage regulators, multi-circuit power strips, receptacles, namely, power cords and extension cords , touch screens, namely, computer, telephone, appliance and interactive display touch screens, touch computers, computer monitors, computer monitor frames, computer network switches and routers, splitters modules, monitor modules, telecom cabinets, service terminals, fiber optic panels, voltage surge protectors, voltage surge suppressors, racks, trays, panels, frames and enclosures for ducting and organizing of computer cables, cable ducts, duct couplings, duct couplers, trays, cabinets, external backup hard disk drive, fibre optic networks for conducting telephone, internet, radio, optical, video, microwave and satellite information and communications, plug-in components for computer modems, namely, memory sockets and cable assemblies, equipment for manufacturing of wire and circuit boards, namely, wire cutting and stripping machines, wire cutting machines, wire twisting machines, electrical chokes, inductors, namely, power, wire wound, radio frequency, and ferrite bead inductors, LAN protocol magnetics, magnetic modules for suppression of electrical interference in LAN protocol, Ethernet and telecommunications networks, resistors, power resistors, electric switches, namely, Dual In-Line Package (DIP), Session Initiation Protocol (SIP), keylock, power toggle, pushbutton, rocker, paddle, rotary, slide, tactile, and toggle switches, cards with computer chips and integrated circuits for carrying data, backplanes, backplane interconnects, fiber optic attenuators, multiplexers, electronic amplifiers for increasing the power of an electric, audio or visual signal, sleeves for cables, wires, and voltage lines, electronic filters, power line filters, signal filters, diplexors, capacitors, circulators, isolators, resistors, cable and modular couplers, batteries for supply of energy, namely, general purpose batteries, battery terminals, microwave products, namely, microwave harness assemblies and microwave connectors , signal mixers, namely, signal amplifiers, signal processors, multiplexers, attenuators, converters, signal modulators, electrical converters, Ethernet fibre media converters, heat sinks, computer heat sinks, meters, electronic controllers that hold a process or condition at a desired level or status by comparison of the actual value with the desired value, radio frequency identification tags, circuit protection devices, namely circuit breakers, fuses, radar systems, RF components, namely, radio antennas, radio frequency connectors, radio towers, transmitters, indoor and outdoor panel enclosures and cabinets for holding, protecting and organizing electrical infrastructure networks, cables and connectors, cabinets for holding and organizing telecommunications infrastructure cabling and connectors, panels used for mounting telecommunications equipment connectors to upright walls, heat and cold shrinkable enclosures and wraps, adhesive labels, decals, identification tags, markers for wires, cables, hoses, pipes and harnesses, tools for applying adhesive labels, decals, tags, and markers, fibre optic panels, relay panels, switch panels, radios, radio components , namely, antennas, batteries, switches, relays, cables, wires, timers, RF connectors, power converters, keypads, computer and video monitors, integrated circuits, connectors for electrical components, sleeves for covering electrical and telecommunication cables, connectors for telecommunication components, electrical and telecommunication fittings, namely clamps, lugs, joints and sleeves, surge arrestors, overvoltage arrestors, lightning arrestors, components for electrical earthing or grounding, namely, earthing clamps, copper lugs, link boxes, vibration indicators, electrical fuses, light emitting diodes, electrical terminal blocks, namely, wire-to-wire blocks, wire-to-board blocks, insulation displacement wire connection blocks, voltage or current surge protectors for electrical and electronic plants and public and private data telecommunication networks, fittings, namely, surge arresters, fuses, melting fuses diodes, varistors and thermoprotective circuit breakers, computer software for use in operating and managing public and private telecommunication networks, namely satellite, wireless, telephone, cable and cellular networks, and the communications over such systems, extruded plastics for use in manufacturing, plastic pipes, rubber pipes, heat-shrinkable tubing, rubber products, namely, electrical insulation, electrical insulation, hoses for carrying gas discharge, hoses for transporting fibers, heat resistant hoses, hoses with turning and pivoting capabilities for ease of manipulation and direction, insulation for the protection of cables and cable joints, protective plastic wraps for cables, tapes and sealants, namely, adhesive sealant, adhesive tape, epoxy resins, casting resins, polyester film, adhesive cements, adhesive sealants, adhesive thermosets, adhesive thermoplastics.

CLAIMS

Priority Filing Date: SWITZERLAND December 01, 2010, Application No: 63131/2010 in association with the same kind of goods and in association with the same kind of services. Used in SWITZERLAND on goods and on services. Registered in or for SWITZERLAND on May 03, 2011 under No. 614795 on goods and on services. Proposed Use in CANADA on goods and on services

Application Number 1,571,250 **Filing Date** 2012-03-30

REDEFINING HEALTHCARE

GOODS

(1) Diagnostic reagents for clinical or medical or forensic laboratory use; reagents for chemical analysis; testing kits containing reagents used in analyzing and detecting certain toxins for clinical or medical laboratory use; genetic identity tests comprised of reagents; antibodies for in vitro scientific or research use; biochemical and biomedical compounds to be used in biochemical and clinical research; chemical preparations to be used in biochemical and clinical research; diagnostic preparations for clinical or medical or forensic laboratory use.

(2) Biological and chemical preparations for medical or veterinary use; reagents and media for medical or veterinary purposes; clinical medical reagents; biological and chemical preparations, namely, antibodies for clinical, medical or veterinary use to detect and analyze substances; diagnostic kits for medical or veterinary use; diagnostic preparations for medical or veterinary purposes; testing kits containing reagents for use in testing of body fluids; test strips for medical and laboratory analysis of blood; ovulation test kits; biological tissue cultures for medical or veterinary purposes; culture media for cultivating blood cells.

(3) Computer software for medical monitoring and analysis of medical data; computer software for analysis of body fluids; computer software for communication and data transfer between health care professionals and patients; computer hardware; mobile electronic devices, namely personal digital assistants, tablet computers, mobile phones, smartphones, and other cellular or wireless communication devices for voice, data or image transmission; electronic publications, namely, downloadable newsletters in the field of medical diagnostic testing, downloadable e-zines, magazines, books, manuals, pamphlets, and journals, all in the fields of healthcare, medicine, personal health and fitness, biomonitoring, medical diagnostics, monitoring and testing; electronic diaries.

(4) Medical devices for monitoring blood pressure, pulse, heart rate, respiration, blood oxygen, blood glucose, blood composition, cholesterol, temperature and weight; medical devices, namely apparatus for laboratory analysis of body fluids and tissue; medical devices, namely handheld devices for analysis of drugs and proteins and wireless transfer of said medical data; medical measuring apparatus, namely, cartridges for use with therapies or equipment for medical monitoring and analysis of bodily fluids; medical devices, namely blood analyser; medical devices for blood samplings and blood separator; medical devices, namely blood tester; medical device urine analyser; medical devices, namely biological tissue and fluid analyser; medical devices, namely diagnostic kits; capillary reagent tubes; capillary tubes for blood; capillary tubes for samples

; containers especially made for processing blood samples; containers for medical waste; medical devices, namely blood sugar monitor; medical devices, namely disease detection kits; health monitoring devices, namely personal medical monitors of blood pressure, pulse, heart rate, respiration, blood oxygen, blood glucose, blood composition, cholesterol, temperature and weight, for monitoring a wide variety of physical conditions and diseases; medical diagnostic apparatus for monitoring a wide variety of physical conditions and diseases, namely individualized, electronic monitors for measuring biochemical, hematological, neurological, pulmonary, endocrinal, muscular and cardiac activity; medical devices, namely blood property monitor; medical devices for obtaining body fluid samples; medical monitors for monitoring a wide variety of physical conditions and diseases, namely individualized electronic monitors for measuring biochemical, hematological, neurological, pulmonary, endocrinal, muscular and cardiac activity; home or portable monitors for monitoring a wide variety of physical conditions and diseases, namely individualized, electronic monitors for measuring biochemical, hematological, neurological, pulmonary, endocrinal, muscular and cardiac activity.

SERVICES

(1) Administering pharmacy reimbursement programs and services; Administration of patient reimbursement programs; billing; compiling of information into computer databases; management and compilation of computerized databases; medical referrals; physician referrals; medical billing support services; providing an internet-based database of patient medical information designed to facilitate sharing and maintenance of patient medical information between and amongst the patient, insurers and healthcare professionals providing services to the patient; providing an internet-based system for confirming patient identity, eligibility and authorization for private and/or public health insurance services.

(2) Insurance claims processing; pharmaceutical benefit management services; pharmacy benefit management services; medical laboratory benefit management services.

(3) Biomedical services, namely, storage of medical data; biomedical services, namely, the storage of human cells for medical use; consulting services in the field of air medical operations in the nature of air medical transport; medical transport services; transportation of medical waste and special waste, namely disposing of waste with hazardous properties.

(4) Medical and scientific research services in the fields of blood analysis health care and health care monitoring; pharmaceutical research services; pharmaceutical research and development; blood analysis services; chemical laboratories; consulting services in the fields of biotechnology, pharmaceutical research and development, laboratory testing, diagnostics, and pharmacogenetics; genetic testing of laboratory animals for research purposes; biological research; biomedical research; laboratory research in the field of chemistry, biochemistry, biology, health and medicine; pigment and color analysis; laboratory services, namely, imaging core lab services; medical laboratories; medical laboratory services; providing laboratory research services in the field of gene expression, namely, cancer biology; rental of laboratory apparatus and instruments; scientific laboratory services; providing a web site featuring technology that enables patients, physicians, insurers and other healthcare providers to generate, manage and exchange medical information.

(5) Medical evaluation services, namely, assessment of patients undergoing medical treatment; medical monitoring services, namely monitoring the efficacy of therapy and total patient or consumer health for a wide variety of physical conditions and diseases, by means of individualized, electronic monitors for measuring biochemical, hematological, neurological, pulmonary, endocrinal, muscular and cardiac activity, medical diagnostic testing, monitoring and reporting services; collection and preservation of human and animal blood; consulting services in the field of health;

consulting services in the field of diagnostic medical testing; consulting services in the fields of health and healthcare; drug use testing services; drug, alcohol and DNA screening for medical purposes; maintaining patient medical records and files; medical counseling; medical information; medical services, namely medical evaluation services, medical testing services and medical monitoring services in the fields of blood analysis health care and health care monitoring; medical testing for diagnostic or treatment purposes; providing information in the field of pet health; pet hospital services; providing a web site featuring medical information; providing a website featuring health and healthcare information; internet-based health care information services; providing health information; providing healthcare information; rental of medical equipment; veterinary special services, namely medical diagnostic services, healthcare management services, and emergency and trauma services, all for animals.

chemicals and oils for use in the manufacture of inks and paints; chemicals used in agriculture, horticulture and forestry; fire extinguishing compositions; alcohols for industrial purposes, namely alcohol-based sprays and alcohol-based wipes, medical and cleaning purposes; tempering and soldering preparations; carbon for filters; chemical preparations, mineral substances and unprocessed plastics, each in the nature of filtering materials for industrial use; chemical substances for preserving foodstuffs; tanning substances namely, enzymes for use in the tanning of leather; manures; security inks; invisible inks; printing inks; inks; inks for roller cassettes; thinners for inks; clear and pigmented coatings in the nature of paint; conductive inks; security lacquers; paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; mordant dyes; raw natural resins; metals in foil and powder form; metal components for use in industry and manufacture namely, screws, and springs; metal cable ties; metal locks; latches; catches; hinges; metal clamps, namely metal hose clamps, cable clamps made of metal, surgical clamps, woodworking clamps, toggle clamps of metal for use in the food, pharmaceutical and chemical industries; machine parts namely, bearings; metal nuts; metal bolts; castors; bumper guards for furniture; corner and edge protectors; feet for furniture; metal door handles; metal door knobs; hand wheels; tube inserts of metal namely, metal pipe joints; metal tube connectors in the nature of pipe couplings; grommets; metal spacers used to create spacing between objects namely, general purpose metal spacer brackets; ferrules of metal; fixings in the nature of general purpose metal hardware; fasteners namely, metal bolts, screws and rivets; metal chains; metal industrial control levers and metal clamping levers being parts of machines; depth gauges; foil for use on containers and packaging; foils for wrapping and packaging; metallic foils and containers for wrapping and packaging; common metals and their alloys; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery namely, cast iron rods; small items of metal hardware namely, metal washers; pipes and tubes of metal for use in industry and manufacture; safes; ores; handles for furniture; handles (parts of machines); gear wheels for machines; vibration mounts; hoist rings for machines; printing machinery; 3D printing machinery; inking apparatus for commercial or industrial printing machines; laminating machinery; machine coupling and transmission components; incubators for eggs; automatic vending machines; security encoded tapes; ID card printers; software for the design and creation of printed ID cards; ID cards; ID cameras; security passes; visitor passes; security wristbands; holograms; encoded micro particulates, tags and taggants of plastic, metal or silicate for use in the field of passive labeling for authentication purposes; taggant readers namely, handheld readers for detecting and reading taggants; magnetic tape; magnetic receptive steel tape; circuit board hardwear; fibre optic components namely, fibre optic couplings, fibre-optic cables and junction sleeves for fibre optics; levelling devices namely, leveling mounts for machines; protective headwear; protective eyewear; protective gloves; protective respirators; hazard warning cones; hazard warning triangles; warning flags; fire extinguishers; plastic or foam feet for telephones and printers; fibre or porous plastic surface active media used in life science assays; pipette tip fibre filters; fibre or porous plastic filters for DNA purifications; fibre or porous plastic filters for protein isolation; fibre or porous plastic filters for sample preparation in laboratory; fibre or porous plastic filters for column chromatography in laboratory; ink-jet printers; inking monitors; packaging made of paper, cardboard or plastic; bags for packing; blister packs for packaging; bubble packs; gum for packing; packing containers of cardboard; packing containers of paper; paper packing; plastics for packing; portioned packs made of plastics; boxes in collapsible form; boxes for packaging; cartons of plastics, card or paper for packaging; coated paper, card or plastics for packaging; foil (non-metallic) for packaging; packages namely, boxes, cartons, storage containers, and packaging containers made of paper or cardboard; packaging materials made of paper, cardboard or plastic film; leaflets; guide leaflets; pharmaceutical information leaflets; paper labels; adhesive backed films for use as labels; adhesive labels; coated paper or card for labels; tapes for packing and packaging; re-sealable adhesive tapes; closures namely, paper and coated paper closures for containers; tear tape; paper for use in the manufacture of cigarette and tobacco smoke filters; ID cards; ID card printer ribbons; reservoirs , wicks and connectors for writing instruments and printer cartridges; inks; ink cartridges for pens; ink blotters; ink erasers; ink reservoirs; ink ribbons; absorbent media and reservoirs used in printers ; cardholders; visitor passes; event passes; cartons made of paper or cardboard; blister packs; blister pack foils; leaflets; tissue tape; transfer tape; glue dots for household use; cellulose wipes; pre-saturated wipes namely, disposable wipes moistened with water or chemicals; injection moulded plastic; vinyl dip moulded plastic; thermoplastics; semi-processed resins; polymer alloys; plastic seals; plastic and foam pipe and flange protection; plastic spacers: plastic tapes namely, plastic masking tapes; adhesive tapes for technical purposes namely insulating tapes; double sided tape; insulating tape; tear tape; adhesive tape; hermetic tape; heat insulation foam; lamination overlays; lamination film; lamination pouches; film tape; foam tape; bag sealing tape; laminating tape; non-slip foam pads, cushions and bumpers; shaped foam or rubber strips for reducing light or air; plastics in extruded form for use in manufacture; flexible pipes made from plastics and synthetic materials; plastic pipes; foam, bonded fibre and porous plastics used in wound care and other medical devices, cosmetics and noise attenuation; foam, bonded fibre and porous plastics used in the transfer, collection and storage of liquids; general purpose plastic hardware namely, plastic washers, bushings, nuts, clamps, latches and pipe clips; plastic fasteners namely, plastic bolts, screws and rivets; plastic caps; plugs namely, plastic sealing caps; valves namely, valves of plastic being other than machine parts, namely safety valves, magnetic valves, automatic valves, solenoid valves, pressure relief valves, rubber clack valves, valves for industrial machinery, valves for machine components, erg valves, pave valves, valves being parts of machines and non-machine element valves; cable ties; locks made from plastics and synthetic materials; latches; catches; hinges; clamps made from plastics and synthetic materials for use in the food, pharmaceutical and chemical industries; non-metal handles, namely, door handles; non-metal door knobs; hand wheels ; castors; bumper guards for furniture corner and edge protectors; feet for furniture; plastic tubing namely, flexible tubes of plastic; grommets; tube connectors namely, non-metal couplings and joints made from plastics and synthetic materials; ferrules made from plastics and synthetic materials; screws, nuts and bolts made from plastics and synthetic materials; protective plastic parts namely, furniture parts; thread protectors for pipes, tubes, tubular goods connectors and casings; tubular goods handling system, namely, steel frame with wood inserts having recesses for protecting tubulars during transport; containers made of thermoplastics materials for the packing of goods; containers of plastic (packaging); packing containers of plastics; closures for containers; closing devices for use on containers namely, non-metal closures; plastic medication containers; boxes in collapsible form (plastic); plastic packaging containers; cigarette filters; cigar filters; pipe filters; filters for hand-assembled smoking articles; filters for use in machine-made cigarettes; manually assembled smoking articles, namely, kits, containing tobacco and paper, for assembling roll-your-own cigarettes and make-your-own cigarettes; cigarette and cigar holders; filter rods namely, multiple filters for cigarettes, cigars and hand-assembled smoking articles; smokers articles namely, electronic cigarettes, electronic cigars, electronic pipes, cartridges, namely, electronic cigarette refill cartridges sold empty; matches.

SERVICES

Laboratory testing services; laboratory research services; furniture design services; studio design services; analytical method development namely, design and development of chemical analysis procedures; chemical analysis; product testing; material testing; quality control for others; research, development and testing of new products for others; product design and innovation; design of packaging; commercial packaging design; medical packaging design; scientific and technological services namely, engineering of production and testing processes for filter products; research and design services namely, research and design of filter products; industrial analysis and research services; design and development of computer software.

GOODS

(1) Medical devices for laboratory analysis of body fluids and tissue; medical devices, namely, point of care and handheld devices such as personal digital assistants (PDAs), wireless phones and smart phones, videophones, handheld computers and tablets computers for analysis of drugs, proteins and body fluids and wireless transfer of medical data; medical measuring apparatus namely, equipment for medical monitoring and analysis of body fluids and tissue; medical measuring apparatus, namely, cartridges containing sensors for measuring and analyzing bodily fluids and pharmaceutical concentrations for use with therapies or equipment for medical monitoring and analysis of body fluids and tissue; apparatus for blood analysis namely, blood glucose meters, blood glucose monitors, blood glucose test strips; apparatus for taking blood samples namely, blood collection tubes, blood filters, blood test strips; blood testing apparatus namely, glucose meters, lancets and lancing devices; apparatus for clinical diagnosis namely, microscopes, glucose meters, glucose monitors, glucose sensors, pricking devices for collecting samples of bloods; capillary reagent tubes; capillary tubes for blood; capillary tubes for samples; containers especially made for processing blood samples; containers for medical waste; blood sugar monitors; electronic diagnostic apparatus namely, analytic apparatus for the detection of a wide variety of diseases; health monitoring devices namely, personal medical monitors of blood pressure, pulse, heart rate, respiration, blood oxygen, blood glucose, blood composition, cholesterol, temperature and weight for monitoring a wide variety of physical conditions and diseases; medical diagnostics apparatus namely, blood pressure, pulse and blood oxygen, blood glucose, blood composition, cholesterol and temperature monitors for diagnosing a wide variety of physical conditions and diseases; medical apparatus and instruments for monitoring blood properties namely, blood pressure monitors, heart monitors, thermometers and pedometers; medical devices for obtaining body fluid samples namely, catheters, needles, containers and swabs ; patient medical monitors for monitoring a wide variety of physical conditions and diseases namely, individualized electronic monitors for measuring biochemical, hematological, neurological, pulmonary, muscular and cardiac activity; home or portable monitors for monitoring a wide variety of physical conditions and diseases namely, testing monitoring and reporting devices for medical and healthcare purposes for individualized medicine and healthcare.

(2) Temperature-controlled portable shipping containers; temperature controlled shipping containers for storage and transportation of medical fluids.

(3) Nonmetal containers for the transport and storage of tissues and cells for medical and scientific purposes.

SERVICES

(1) Administering pharmacy reimbursement programs and services; Administration of patient reimbursement programs; billing; compiling of information into computer databases; management and compilation of computerized databases; medical referrals; physician referrals; medical billing support services; providing an internet-based database of patient medical information designed to facilitate sharing and maintenance of patient medical information between and amongst the patient, insurers and healthcare professionals providing services to the patient; providing an internet-based system for confirming patient identity, eligibility and authorization for health insurance or social welfare or social insurance services.

(2) Biomedical services, namely, storage of medical data; biomedical services, namely, the storage of human cells for medical use; consulting services in the field of air medical operations in the nature of air medical transport; medical transport services; transportation of medical waste and special hazardous and non-hazardous waste.

(3) Medical evaluation services namely, identifying, quantifying or monitoring a wide variety of physical conditions, traits and diseases; medical evaluation services, namely, assessment of patients undergoing medical treatment; medical monitoring services in the fields of blood analysis health care and healthcare; medical monitoring services, namely, monitoring the efficacy of therapy and total patient or consumer health; medical diagnostic testing, monitoring and reporting services; collection and preservation of human and animal blood; consulting services in the field of health; consulting services in the field of diagnostic medical testing; consulting services in the fields of health and healthcare; drug use testing services; drug, alcohol and DNA screening for medical purposes; health assessment services namely, conducting medical physical evaluation for detection of a wide variety of diseases and physical conditions; health care monitoring; maintaining patient medical records and files; medical counseling; medical information; medical screening; medical services namely, counseling, medical evaluation services, medical clinics, medical testing services and medical laboratories and providing medical information; medical testing for diagnostic or treatment purposes; providing information in the field of pet health; pet hospital services; providing a web site featuring medical information; providing a website featuring health and healthcare information; internet-based health care information services; providing health information; providing healthcare information; rental of medical equipment; veterinary special services; veterinary specialty services providing advanced medical, diagnostic or surgical services to animals.

- Black
- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trade-mark. The background at the top and bottom of the trademark is gold. There is a white line around the top section of the drawing; a white line around the middle section of the drawing; a black line around the bottom section of the drawing. In the top section of the drawing the Arabic script is in red and the English words King of Arak Arak Touma are in black. The crown is gold with white openings and the crest is red, white and red with gold arms at the base. In the middle section, designs in each corner are in red with white openings and gold borders. The devices at the left side, right side and bottom are gold with a red centre. The device in the middle shows a red medallion with a gold gazelle standing on a white base. The bunches of grapes on either side of the device are red. The remaining elements in the device are gold.

Foreign Character Translation

As provided by the applicant, the translation and transliteration of the foreign characters are as follows:"Arak Touma-King of Arak". Touma has no meaning in English or French

GOODS

Computer hardware and software for processing, authorizing, and transferring data between point of sale devices and contactless smart cards; computer hardware and software for configuring and processing smart cards; computer software and hardware for the sale and purchase of tickets; computer software for financial analysis and accounting in the field of consumer spending; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for integrating fare collection and payment system transactions; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for fare collection and payment; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for data and transaction management and analyses; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for financial settlement and clearing; computer hardware; computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for tracking and influencing consumer behavior in the area of public transportation, including all mass transit systems; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for informing consumers' travel decisions; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for tracking people's use of transportation and mass transit; computer hardware, computer software, computer operating systems and computer peripherals therefor, namely, fare gates, point-of-sale terminals and kiosks, for customer relationship management; electronic fare collection equipment sold as a unit, namely, smart cards and magnetic encoded cards containing programming for use with electronic fare collection, fare boxes, ticket machines, magnetic card processors, smart card readers, ticket processors, turnstiles, electronic control processors; automated parking systems, namely, computer software to run parking fee collection devices and computer hardware, fare boxes, ticket machines, magnetic card processors, smart card readers, ticket processors, electronic control processors, smart cards and magnetic encoded cards containing programming for use with automated parking; automatic fare collection systems for rail, bus and parking lots sold as a unit, consisting of encoded smart cards containing programming for fare collection, magnetic encoded cards containing programming for fair collection, card production machines used to produce the foregoing encoded smart cards and magnetic encoded cards, pay stations, ticket issuing and validating machines, electronic processors of smart cards and tickets and payments, electronic point of sale devices, smart card readers, fare boxes, entry/exit terminals, entry/exit gates, and wireless communication transponders and radio receivers; serialized media, namely encoded smart cards containing programming used for payment systems in the transportation field; magnetic encoded cards used for payment systems in the transportation field; radio frequency identification (REID) tags for use in connection with payment for services, namely, contactless credentials used for payment systems in the transportation field; encoded smart cards containing programming for use with payment systems in the transportation field; REID tags used as contactless credentials for account based payment in the transportation field; magnetically encoded stored value cards for use with payment systems in the transportation field; smart card readers; magnetic encoded card readers; near field communication (NFC) technology-enabled readers; personnel locator computer hardware and software; combat simulators for training purposes; training systems for aircraft, vehicles, weapons and personnel in live, constructive and virtual environments consisting of transceivers, lasers not for medical use, GPS technology in the nature of a global positioning system, data link technology in the nature of electronic and optical communications instruments and components, namely, optical data links, electronic encryption units, radio frequency identification tag readers, wireless communication transponders and radio receivers; computer hardware, electronic display interfaces; computer software for tracking people and vehicles, collecting recording and replaying instrumentation data, providing automated processing and analysis of instrumentation data, computer networking, monitoring hit/miss notifications, scoring the outcome of weapons engagements and simulations of kinetic and non-kinetic threat weapons systems; electronic apparatus for tracking people and vehicles, collecting, recording and replaying instrumentation data , providing automated processing and analysis of instrumentation data, networking, monitoring hit! miss notifications, scoring the outcome of weapons engagements and simulations of kinetic and non-kinetic threat weapons systems; computer peripheral equipment for tracking people and vehicles, collecting, recording and replaying instrumentation data, providing automated processing and analysis of instrumentation data, computer networking, monitoring hit/miss notifications, scoring the outcome of weapons engagements and simulations of kinetic and non-kinetic threat weapons systems, all of the foregoing for education, training development, management support, and operations and maintenance support; communication and electronic products, namely, radio and optical data links consisting of compact modem assemblies, RF amplifiers and antennas for radio datalinks and modulated low-power lasers and optical receivers for optical datalinks for transferring radar, video and other information obtained via sensors for intelligence, surveillance, search-and-rescue, air traffic control and military/civil communication markets; radios; radio, electronic optical and mobile data transmitters; radio receivers, filters, and exciters; high power amplifiers, antennas, direction-finding transponders and radio receivers, computers, computer display screens and monitors and software to transmit, network, detect, intercept, analyze, distribute and process intelligence and communications signals; computer hardware and software for surveillance associated with military intelligence/gathering and relaying adversary information; electronic communications computer hardware and software for military intelligence/gathering and relaying adversary information, transponders and radio receivers; computer hardware and software , transponders and radio receivers for use with shelters and unmanned aerial vehicles; computer hardware and software for the delivery of air-to-air, air-to-ground, air-to-water, ground-to-ground and ground-to-water missiles; computer hardware and software for the simulation of, and real time dissemination and display of the delivery of surveillance apparatus and explosives.

SERVICES

business management, namely, providing business assistance to enterprises in the field of operations and combat training systems; business management, namely, providing operational services to others in the field of combat training systems; financial analysis, consultation and clearing house services in the field of electronic fare collection systems, automated parking systems and public transportation; financial consulting services in the field of electronic fare collection systems, automated parking systems and public transportation; repair and maintenance for others of combat training systems; computer hardware technical support services for the installation and maintenance of combat simulation training systems, weapons effects analysis systems, and weapons simulation systems; maintenance and installation of electronic component devices and computer networks that are used for combat training systems; consulting services with regard to the installation and maintenance of electronic fare collection systems; consulting related to the installation and maintenance of computer hardware systems for processing, authorizing and transferring data between point of sale devices and contactless smartcards; consulting related to the installation and maintenance of computer hardware related to smartcards and computer hardware related to the sale and purchase of tickets; computer hardware technical support services for the maintenance of automatic fare collection systems for rail, bus, and parking lots; consulting services in the field of automated parking systems and public transportation; traffic flow consultation services in the field of public transportation; custom manufacture of electronic fare collection systems and automated parking systems; manufacturing services for others in the field of combat training systems; contract manufacturing in the field of combat training systems; custom manufacture of combat training systems for others; contract manufacturing of secure data links, power amplifiers, avionics systems, multiband communication tracking systems, and cross-domain hardware solutions, all for use in the field of combat training; contract manufacturing of personnel locator systems and maintenance trainers for combat systems and vehicles, all for use in the field of combat training; contract manufacturing of operational trainers for missiles, armored vehicles and naval applications, all for use in the field of combat training; contract manufacturing of navigational systems and search and rescue avionics, all for use in the field of combat training; custom manufacturing of military range instrumentation systems and laser-based training systems, all for use in the field of combat training; custom manufacturing of virtual tactical engagement simulation systems, fixed operation training centers, mobile operation training centers, and urban operation training centers, all for use in the field of combat training; custom manufacturing of common data link systems for naval applications, unmanned aerial vehicles, and remote video terminals, all for use in the field of combat training; custom manufacturing of satellite technologies, global systems for mobile communications (GSM) technologies, and encrypted mesh network technologies, all for use in the field of combat training; custom manufacturing of specialized security and networking infrastructure, all for use in the field of combat training; educational services, namely conducting classes, seminars, conferences and workshops relating to the operation and maintenance of combat training systems; educational services, namely, training related to the development and implementation of simulated combat training and consequence management exercises, namely, exercises related to responding to life threatening or destructive events; educational services, namely, training related to allied force modernization for combat security and peacekeeping missions; educational services, namely, providing classes: seminars and workshops in the field of military combat, security and peacekeeping missions; custom software design for others; consulting related to the design, development, engineering, operation and maintenance of software for computer systems for processing, authorizing and transferring data between point of sale devices and contactless smartcards, software related to smartcards, transport ticketing computer systems and software related to the sale and purchase of tickets; engineering and software technical support services for the design, development and maintenance of computer software for automatic fare collection systems for rail, bus, and parking lots; consulting services with regard to the design and development of electronic fare collection systems; consulting related to the design, development, engineering and operation of computer hardware related to smartcards and computer hardware related to the sale and purchase of tickets; computer hardware technical support services for the design, development, and operation of automatic fare collection systems for rail, bus, and parking lots; design and development of computer hardware and software for use in the field of public transportation; engineering and design services in the fields of automatic revenue collection systems, surveying and electronic measuring equipment, communication systems, flight collision warning systems, and electronic tracking systems for others ; military technical research and development for others in the field of technical warfare communications; engineering and software technical support services for the design, development, installation, and maintenance of computer software for combat simulation training systems, weapons effects analysis systems, and weapons simulation systems; consultation and advice related to allied force modernization for combat, security and peacekeeping missions, namely, consultation and advice regarding the design and development of modern vehicles and computer systems for combat, security and peacekeeping missions; computer hardware technical support services for the design, development, and operation of combat simulation training systems, weapons effects analysis systems, and weapons simulation systems; technical consultation services related to the design of electronic fare collection systems and automated parking systems used in public transportation; and security consultation and security advice related to the development and implementation of simulated combat training and consequence management exercises, namely, exercises related to responding to life threatening or destructive events; security consultation and security advice related to allied force modernization for combat, security and peacekeeping missions. modernization for combat, security and peacekeeping missions.

CERTIFICATION MARK

MSPM

Certification Mark Text

The use of the certification mark is meant to indicate that the professionals to whom it was granted and who provide their services in this context meet the following requirements : a) the certified professional has demonstrated to the applicant that he or she received training to prepare for the certification examination consisting of a theoretical review of the main issues, an appropriate review of the guidelines and regulations, as well as case studies, all in relation to management sciences applied to the field of contracting. This is a 2-week intensive training course, in the form of workshops and seminars. The certified professional can also meet this training requirement by demonstrating to the applicant (by submitting documentation consisting of a resume, employer references, and recommendation letters) that he or she has verifiable prior professional experience in a management position related to the field of contracting; the applicant will determine the relevance of this experience. B) the certified professional has previously passed a certification test. The candidate will need to prove at least 3 years' professional experience in contracting, as demonstrated by his or her resume and certifications. The 3-hour certification exam is created by the applicant, in the form of a multiple choice questionnaire to be filled out on a computer, the questionnaire covers four themes : (1) General contracting principles, (2) Consultant contracting, (3) Supply contracting, (4) Work contracting. The passing grade is 60%. C) the certified professional has committed to providing his or her services ethically and with integrity in the interest of the general public and the project beneficiaries in particular. D) the certified professional has committed to professional development and continuous updating of his or her knowledge in the field of contracting management. For that purpose, the certified professional who has passed the exam has 3 years to renew his or her certification by demonstrating that they have received training courses, seminars, development workshops, as well as a sustained practice of the trade in the field of contracting management, the relevance of which the applicant will determine. E) the certified professional will be submitted to periodical service quality evaluations. These periodical evaluations are carried out by the applicant every 3 years, the certified professional will need to submit documentation consisting of a resume, to prove that he or she continued to practice in the field as well as participation certificates for training sessions, seminars, and development workshops. If the certified professional does not submit to these periodical evaluations, his or her certification will be nullified and a new examination will apply.

- More than two circles or ellipses, inside one another, spirals
- Circles or ellipses containing representations of heavenly bodies or natural phenomena
- Circles or ellipses containing representations of animals, parts of animals' bodies or plants

- Labels, collarettes (bottle-neck labels) -- Note: Not including tie-on labels (20.5.15).
- Rectangles

Trademark Description

The trade-mark is two-dimensional and consists of a representation of a bottle with a label on the bottom of the bottle containing the words 'MAESTRO DOBEL DIAMANTE' and a Horn design. The neck label of the bottle contains the words 'MAESTRO DOBEL DIAMANTE' and the following words are on the glass of the bottle 'RESERVA DEL MAESTRO TEQUILERO TEQUILA 100% DE AGAVE DE CAMPOS SELECTOS PRODUCCION ANUAL LIMITADA Y NUMERADA HECHO EN MEXICO'. The bottle shown in dotted outline does not form part of the trademark. The English translation of the Spanish words RESERVA DEL MAESTRO TEQUILERO TEQUILA 100% DE AGAVE DE CAMPOS SELECTOS PRODUCCION ANUAL LIMITADA Y NUMERADA HECHO EN MEXICO is 'reserve of the master tequilero tequila 100% agave from select fields annual production limited and numbered made in Mexico'. Colour is not claimed as a feature of the trade-mark

Foreign Character Translation

As provided by the applicant, the English translation of the Spanish words RESERVA DEL MAESTRO TEQUILERO TEQUILA 100% DE AGAVE DE CAMPOS SELECTOS PRODUCCION ANUAL LIMITADA Y NUMERADA HECHO EN MEXICO is 'reserve of the master tequilero tequila 100% agave from select fields annual production limited and numbered made in Mexico'.

- Circles or ellipses containing inscriptions arranged in circular or elliptical form
- Circles or ellipses with dark surfaces or parts of surfaces

---

Trademark Description
Check mark and car design inside of a round seal with inscription. The inscription above the car reads 'Inspected by InspectaCAR' and the inscription below the car reads 'Ask to see my inspection report'. This seal is the official InspectaCAR seal and will be used in print and digital media to advertise InspectaCAR's vehicle inspection services. Further, the seal will also be used as a

window decal which will be placed on the windshields of cars inspected by InspectaCAR to advertise the company's inspection services, as well as to promote the fact that the vehicle has been inspected by InspectaCAR and a report is available.
